ALBERT H. DELLIVENERI,
Auditors.

RUTLAND TOWN SCHOOL DISTRICT
REPORT OF THE SCHOOL DIRECTORS
AND SUPERINTENDENT

The reports from the schools are being condensed and combined this year in order to give greater detail in reference to the new elementary grade school.

Shortly after the closing of schools in June 1965 your Directors and Superintendent visited all schools to determine the amount of maintenance and repairs to be done in order to bring the buildings into satisfactory condition for the next school year.

All buildings were thoroughly cleaned, including the washing of walls, ceilings and fixtures and windows. Floors in all buildings except Center Rutland were cleaned and sealed. The floors in Center Rutland School were sanded and sealed. Where necessary, painting was done on walls and floors.

At Center Rutland School exterior walls were painted on three sides, the slate roof was repaired including snow guards and eave troughs and down spouts.

All heating units were cleaned and checked for proper operation.

For several months efforts were made to replenish the amount of water at the well in Dyer School and because of not being successful it was decided to drill a new well. Contract was given to Green Mountain Drilling Company, Center Rutland, Vt. Good supply and quality was found at a depth of 185 feet.

The contract for providing of pump, pressure tank and material was awarded to Lyman Russell Corp., 19 Allen St., Rutland, Vt.

We have this year added to our curriculum instruction in art. Mrs. Barbara Strzelec of West Rutland, Vt. is teaching this course.

Each year the Board is required by law to see that a census is taken of pre-school children in the town. In accordance with our custom, the results of the census taken in 1965 are given below according to the year in which the children are expected to enter first grade:

	1966	1967	1968	1969	1970*	1971
Center Rutland	19	12	12	9	8	3
Cheney Hill	19	13	14	11	15	8
Dyer	4	6	3	1	2	1
Haiti	12	8	14	5	3	2
	54	39	43	26	28	14

*Born between January and July, 1965

Last year's report began with an appreciative word for several citizens who had spent hours in assisting with our strenuous self-evaluation in the schools. This year we again have citizens to thank, and in great numbers!

For almost a year now there has been an active Building Committee consisting of the members of the school board plus Mrs. Francis Houghton, Mr. Richard Ackerman, Mr. Robert Solari, Mr. Harold Pulling and the superintendent. Each has brought to the work of the committee special insights and skills, and each has given time most generously.

In conjunction with this vital work Mr. Pulling headed up a citizen's committee to inform voters of the special Town Meeting to vote on the school building project. Many people worked conscientiously and vigorously at the task, and the thrilling, favorable vote of 418-52 testifies to the wonderful efforts of so many.

Plans and specifications for this new elementary building have been developed through numerous and lengthy meetings with Irving Hersey Associates, Architects and Engineers. At the time of writing we expect any moment the news that the final specifications have been released to prospective bidders among numerous general contractors. Thus, by March first bids should be received and opened, and we will know whether our carefully and hopefully developed plans can be realized within the total dollar expenditure authorized, some $679,000.

If so, construction will start when the weather improves and the ground softens; the site is already cleared and, for the major part, graded. Because our deliberations on design, basic structural materials and facilities to be included stretched out months longer than we a year ago anticipated, so too does the hoped-for

completion date move farther into the future. Completion a year from final acceptance of the general contract should be a reasonable expectation. That would mean the Spring of 1967.

Despite this unwelcome delay the Building Committee is unanimous in its individual and group feeling that the structure as planned—barring deletions we may be forced into if bids exceed the budget—will be one which will effectively and attractively accommodate a broad, strong, up-to-date educational program.

Because your superintendent feels definitely and happily that this is the case, it is appropriate and opportune to take this occasion to express sincere appreciation to the school directors and those on the Building Committee and to the voters of Rutland Town. It is my belief that a practical answer to the Town's educational problems has been found, and that a structure we all may use fully and of which we may be proud has been planned. Let us hope that it will be bid as expected and fit within our means!

New teachers this year, the first we have needed in several years, are Mrs. Lloyd Hier of Pittsford for grades four and five in Center Rutland and Mr. Carl Mazzariello of Rutland for grades six and seven in the Center. Mrs. Hier taught in Pittsford from 1953 thru 1964, while Mr. Mazzariello is a 1965 graduate of Castleton State College.

They, with Mrs. Strzelec as our new teacher of art, have made fine contributions in our classrooms. In addition, our veterans—all other seven teachers have no fewer than eleven years' service in Rutland Town—provide a strong and experienced corps. We are particularly pleased that Mrs. Ruth Davis, Cheney Hill teacher, overcame an early fall illness and has resumed her post there. Mrs. Margaret Collins taught for Mrs. Davis most of her interval of absence.

The P.T.A. and other parent groups are to be commended for their help in the hot lunch and other programs, to which they have given their efforts; including funds. Your Board of Directors are making a reasonable advance to each group providing lunches, with the understanding that they continue to raise money for the lunches as in the past and at the end of the year any unexpended funds would be returned to the school account.

Notwithstanding that we are expecting a new school building in 1967 we must continue to maintain our present buildings in good condition. During the 1966-67 school year we will be under heavy expense because of increased costs of instruction and tuition for students wanting education in high schools.

The increase in estimated cost of tuition at Rutland High School adds about $18,000 to the amount paid in the school year 1965-66. The extra cost of instruction is principally the additional amount of salaries paid in the employment of competent teachers.

In addition we will pay before another tax year the first bond and interest on the entire bond issue. These two payments will total about $44,000.00.

We believe our state aid for operating schools will be about $27,000.00 and other income will be around $1,150.00. We should have a surplus at the end of the present school year of nearly $9,000.00.

Deducting these two items from the budgeted expense leaves a balance of $172,160.00 approximately. This will require a tax of $5.00 on the grand list. We need this amount of tax income and we trust the voters will approve.

We appreciate all of the assistance given towards the successful operation of our schools. We point out particularly the services of the P.T.A. and other parent groups, and the loyal and efficient services of the teachers.

Our standards for educating the children have improved and we hope to continue along this line.

Respectfully submitted,

ALVA T. HOWE,
VERONICA GUIMOND,
WILLIAM B. THOMAS,
School Directors.

GEOFFREY GRAHAM,
Superintendent.

RUTLAND TOWN FIRE DISTRICT NO. 1
WATER SYSTEM REPORT
PRUDENTIAL COMMITTEE

During the past 4 years much has been accomplished in improving the supply of water.

About 3½ years ago it was found that our reservoir was leaking and our spring house needed extensive repairs.

We employed John A. Russell Corp. to rebuild the Spring House and to drain the reservoir, clean and coat all walls with Gunnite, a special plaster-like substance. This treatment should stop all leaks in reservoir walls for years to come.

As the drought years lengthened the supply of water from springs grew less and less. For many months we had to use water from the reservoir and the Pond. Everyone was disturbed about the quality and quantity of water available. Something had to be done.

We employed the services of DuBois and King as our Engineers. We consulted the Vermont Water Resources Department. They made a survey of our area to determine the best spot to drill for water.

We gave study to the amount of water needed to supply our requirement. We have about 210 people who use water from the large reservoir. Allowing 50 gallons per day for each person, 1500 gallons for Carris Reels—5 days per week and 700 gallons per day for automatic washing machines means a total of 12,700 gallons per day and add another 1,000 gallons for the Center Rutland School, making a total consumption of about 13,500 gallons per day in summer months without the use of hose.

It was decided to drill for water and Spafford and Sons was employed to do the drilling. We first drilled in three spots on the Old Route 4, south of the Railroad overpass, as was recommended by Dr. Doll, State Geologist. We could not drill through or into the Cheshire Quartzite Rock and had to move elsewhere. Mr. Spafford suggested drilling in Maplewood Park, which was also the suggestion of Dr. Doll, State Geologist. Mr. Spafford selected the spot for Well No. 1. After drilling 80 feet deep we had a yield of averaging 15 gallons a minute.

Our Engineers had designed a pump house and automatic equipment for pumping water from well into the system. Unfortunately we had good water but a lot of silt and sand, which we could not readily remove.

So a second well was authorized to be drilled to a depth of 80 feet and if water was not found Mr. Spafford, who selected the spot for the well, was to discuss the result and determine what best be done. Mr. Spafford did not notify the Committee when reaching depth of 80 feet but kept on drilling until the Committee stopped him. He reached a depth of 480 feet so he claimed. No water. Due to the silt problem in Well No. 1, it was decided to drill the third well. The Committee, with the advice of others, selected the spot to drill and we found water at 40 feet but continued to drill to 100 feet hoping to get more volume of water. No. 3 well can produce an average of 15 gallons per minute but here again we have some silt. After considerable experimenting it was recommended that we install a large Commercial Filter. This was done and we are now getting good quality of clean water. Harder than water from our spring, but it is good water.

John A. Russell Corp. was employed to construct a pump chamber and provide all equipment specified by our Engineers.

The consumption of water was in excess of the estimated amount which indicated leaks of considerable amounts.

We searched but did not locate anything definite until accidentally we found a large leak on Carris Reels property. Later we found another large leak on Old Route 4 south of the Railroad overpass. It cost a large amount of money to repair the leaks, but it was well worth the expense for we estimate these leaks were wasting between 4 and 5 thousand gallons per day. Since repairing leaks our consumption has dropped that amount. Our Spring is producing greater volume than for 3 years, yet we still need water from Well No. 3. During the past month we are averaging to pump about 2,500 gallons per day and this small quantity mixed with water from reservoir is giving us good water.

It has taken a long time and a lot of money to do all that has been done. There have been many complaints about supply and quality and the shut offs which had to be made from time to time. However, we hope that our present supply continues. We are most fortunate and more so than many other districts where they are still without the required amount of water.

During the past year we made extensive and expensive alterations to Springs serving Barrett Hill and the homes situated on Old Route 4 west of Otter Creek. The results are excellent, in fact we have more water of quality than is daily needed.

There will no doubt be more leaks as our system was built at least 60 years ago. Our pipe line is corroded and valves are leaking and we must continue to locate all leaks and repair same. We also must look for additional supply of good water.

Due to all of the great expense our water account will need funds before too long. It is apparent that we will have a surplus of some amount from sewer funds and it is our suggestion that part or all of the surplus be transferred to the water account.

Respectfully submitted,

PRUDENTIAL COMMITTEE,
ERNEST E. OLSON,
ALVA T. HOWE,
ALBERT H. DELLIVENERI

REPORT OF PRUDENTIAL COMMITTEE
TOWN OF RUTLAND FIRE DISTRICT NO. 1
SEWAGE AND SEWAGE TREATMENT SYSTEM

In the fall of 1962 the Prudential Committee was notified by the Vermont Water Resources Department that the District would be obliged to control and stop the pollution of Otter Creek. This of course meant that we must have a revised sewer system including a Disposal Plant.

We employed Dufresne & Henry Engineering Corporation of Springfield to serve as our Engineers for designing and supervising installation of our system.

Three plans were presented to the voters and after careful consideration it was agreed to provide Plan #3, which was the most expensive and comprehensive, but without question the best for our needs. It was estimated that the total cost would be $125,000.00. This figure had to be changed from time to time due to changes in layout and cost of additional material and labor. Much ledge was encountered which was covered by unit pieces to be paid contractor.

Rutland City requested that we permit them to add to our system sewage from the City in area just east of our town line. An arrangement was concluded whereby we provide the service and they pay us an annual fee toward the cost of maintenance and an agreed sum annually for 25 years to cover part of the cost of the system.

There were two contracts awarded Project #1 (Intercepting and Lateral Sewers) was awarded to Thygensen Construction Co., Barre, Vt.

The contract for Project #2 (Sewage Treatment Plant) was awarded to Cass-Warner Corp., Essex Junction, Vt.

Both contractors have about completed their contracts there being some items which will be completed in warm weather. The system is operating but there are many items to be tested and perhaps some changes.

The system has not had final approval by the State and Federal Agencies, therefore it is not possible to determine at this time how we will come out financially, however we are expecting a surplus.

In addition to the original plan we have cared for the expense of the Olson connection, the Popovitch addition, three cross overs on Route # 3 and will pay for the other cross overs where connection had to be made crossing the street.

It will be sometime before final inspection and accounting can be completed. We certainly expect completed system will be satisfactory in every way.

Respectfully submitted,

PRUDENTIAL COMMITTEE,

ERNEST E. OLSON,

ALVA T. HOWE,

ALBERT H. DELLIVENERI.

SEWAGE PLANT MAINTENANCE ACCOUNT

Receipts

Received from 1965 Tax Levy		$6,364.79

Disbursements

Central Vermont Public Service Corp., Electricity	$73.10	
Andrew L. Orzel, Treasurer, Fees, Receiving Taxes $123.91; Telephone $2.25; Postage $.72; Recording $5.25	132.13

RUTLAND TOWN MUNICIPAL FOREST
(FIRE DISTRICT NO. 1)

The 20 acre watershed area located on Barrett Hill was marked for a timber sale in 1964. This hardwood sawtimber, consisting of 38 MBF, was put up for bid and sold for a total bid price of $1,337.50.

Future timber sales planned for the watershed will be based on approved watershed management practices designed to protect and increase the supply of available water.

VERMONT DEPARTMENT OF SOCIAL WELFARE

MONTPELIER, VERMONT

This thirtieth in the series of annual reports submitted to the people of Rutland Town presents tabulations for the calendar year 1965. In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospital and physician services, as well as the excess over $80.00 per month in Nursing Home care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	$1,410.94
Hospitalization Services	$923.07
Physician Services	$174.60

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the former amounted to $153.26 and for the latter $1,103.76 for the year just closed.

During 1965 assistance was granted to 14 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services and Medical Aid for the Aged. While no town-by-town records are ompiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,

JOHN J. WACKERMAN,

Commissioner of Social Welfare.

STATE OF VERMONT

DEPARTMENT OF SOCIAL WELFARE

MONTPELIER, VERMONT

To the Auditor of the Town of Rutland.

The following amounts listed represent the amount of the balance due the Vermont Department of Social Welfare as of December 31, 1965, and do not include charges which will appear on the January 1, 1966 billings.

Committed Children	$.....
Aid to Dependent Children	$.....
Hospitalization	$186.78
Physicians' Services	$15.90
Nursing Home Care	$140.70
Total Due	$343.38

JOHN J. WACKERMAN,
Commissioner.

VERMONT STATE DEPARTMENT OF HEALTH

ANNUAL TOWN REPORT, 1965

This is a report to the residents of your town describing the health services which have been rendered during 1965 (July 1, 1964-June 30, 1965). These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in town, we make every attempt to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Rutland Town:

Attendance at well child clinics	—
Nutrition, dietary consultations to institutions, groups, individuals	2
Pediatric consultations for child health problems	—
Number of children given diagnostic service at hospitals	—
Number of children aided at handicapped children's clinics for speech and hearing, orthopedic, plastic, neurological, cardiac problems	4
Number of children financially aided with hospitalization	1
Number of children served by mental retardation clinics	1
People x-rayed for tuberculosis detection	1
Diphtheria, Tetanus, Whooping-cough immunizations	1
Polio immunizations (Salk injection or Sabin oral) at clinics	86
Number of water samples tested (private and public supplies)	38
Food and dairy products tested	—

Blood specimens (pre-marital, pre-natal and other)	33
Other laboratory specimens	6
Sanitary inspections, consultations (food and lodging, camps)	42
Water, sewage disposal, public building and other inspections	18
People x-rayed for occupational diseases	18
Hospital and nursing home inspections and consultations	—
Number served by tumor clinics	2
Public Health Nurse home visits	42
Number served by Public Health Nurse visits	19

Respectfully submitted,

R. B. AIKEN, M.D., M.P.H.,
Commissioner of Health.

1965 FIRE WARDEN'S REPORT

This year the purchase of an additional 12 Indian Fire Pumps brings to a total of 22 pumps distributed throughout various sections of the town.

Because of an unusually dry year there were 24 brush or grass fires which required 581½ miles of travel and 312 man hours to extinguish.

Law Regarding Burning Permits

"Fires kindled for the purpose of burning brush or for other lawful purpose shall be kindled only at such times and under such conditions as will enable the parties starting them to keep them entirely under control. Except as provided in this section, a person shall not kindle or authorize another to kindle a fire in the open air for the purpose of burning brush, weeds, grass or rubbish of any kind except where there is snow on the site, without first obtaining permission from the fire warden or deputy warden of the town, or the state forester, or his deputy, stating when and where such fire may be kindled. Whenever such permission is granted, such warden, or state forester or his deputy, within twelve hours, shall issue a written permit for record purposes stating when and where such fire may be kindled. Such permission shall not be required for the kindling of a fire in a location which is two hundred feet or more from any woodland, timberland or field containing dry grass or other inflammable plant material contiguous to woodland."

Respectfully submitted,

GEORGE LIVAK,
Fire Warden.

Robert Solari	**773-6549**
Frederick Gallipo	**773-6209**

1965 CEMETERY COMMISSIONERS' REPORT

After a series of spring and summer meetings the Board laid out lots consisting of 360 graves.

This parcel of land consisting of approximately 5 acres, is located on the northern end of the town, about .2 of a mile west of Route 7 on the Pinnacle Ridge Road. This plot of land, easily accessible at all times of the year, and being level and sandy, makes an ideal location for the cemetery. With the landscaping now being planned by your cemetery commissioners this should be a most attractive site.

On December 3, 1965 an organizational meeting was held at the office of James Abatiell, Attorney for the Town of Rutland, where by-laws were adopted and officers were elected.

The officers are:

SHERWIN WILLIAMS — President
ROBERT DAVIS — Vice-President
GEORGE LIVAK — Secretary

The following is a copy of the by-laws adopted—

* * * * *

BY-LAWS
RUTLAND TOWN CEMETERY ASSOCIATION

ARTICLE I.

Organization, Meetings, Officers, etc.

The Board of Cemetery Commissioners shall have the care and management of the Town's burial grounds and exercise all the powers, rights and duties with respect to such care and arrangement.

The Board shall consist of three Commissioners elected, separately, at a Town meeting. The Commissioner first chosen shall hold office three years, the next two years and the last, one year. When the term of office of each Commissioner expires, a successor shall be chosen for three years. Vacancies in the Board may be filled by the remaining Commissioners until the next annual Town meeting.

The Commissioners each year, at a meeting called for that purpose, shall elect from among themselves, a President, Vice President and Secretary.

The President shall make, or cause to be made, all deeds of lots sold and shall record all deeds in the book of the Association kept for that purpose.

The Vice President shall assume the office of the President in the event of a vacancy in such position.

The Secretary shall keep an accurate record of the meetings of the Board and the transactions of the Board.

All moneys, trusts, funds, etc., paid to the Board of Commissioners for lots, improvements, perpetual care, service, etc., shall be turned over to the Town Treasurer to be receipted and recorded and kept separate in books and accounts for that purpose. (All draws on the Treasurer for cemetery purposes shall be signed by two Commissioners).

The Commissioners may make necessary By-Laws and Regulations in respect to the burial grounds, interment of the dead, mapping, plotting and landscaping, etc., and may alter the same. Such records shall be filed in Town Clerk's office. Nothing shall be done to fringe on the free exercise of religious sentiments as to the burial of the dead.

The Board shall submit annually, a written report to the Town Auditors as to the condition and status of Cemetery affairs, including a detailed statement of its receipts and expenditures.

It shall be the Commissioners' duty to keep all Town burial grounds in good repair and condition, with adequate fences, headstones, markers and roadways, and all graves shall have necessary and adequate markers and identification with corresponding records maintained in the Town Clerk's office.

The Board shall from time to time establish lot prices, service fees, perpetual care costs, lot sizes, locations, and all other matters pertaining to the operation and management of the burial ground.

ARTICLE II.

Burial Lots and Improvements:

The Board of Commissioners shall establish and receive all prices, fees and charges for burial lots, perpetual care and services.

A conveyance or location certificate must be acquired from the Commissioners by a purchaser before having possession of improvements or interment in the lot.

All work, maintenance, landscaping and improvements, erection of monuments, headstones, memorials, etc., must be subject to the direction and supervision of the Commissioners.

All lots must be marked by corner posts of marble or other suitable stone and no lots shall have fences or shrubbery encircling or bounding such lots.

Lots shall be used only for the burial of human dead.

Any offensive or improper structures, monuments or inscriptions by a determination of a majority of the Commissioners may be removed or placed in good order.

The Town and the Commissioners take no responsibility for any structures or improvements on any lots.

ARTICLE III.

Interments (Graves and Burials)

Once a casket containing a body is within the confine of the cemetery, no person shall be permitted to open the casket or touch the body without the consent of the legal representative or by an order of a Court of competent jurisdiction.

No interment of two or more bodies shall be made in one grave, except in the case of mother and child, or two infants buried in one casket.

Single graves for charity cases will be located in an area apart for that purpose and according to special regulations as from time to time established by the Commissioners.

All burials must be made with outside container made of natural stone, metal or reinforced concrete according to specifications established by the Commissioners. Exceptions may be made for charity or hardship cases.

Lot owners shall not allow interments in their lots in return for remuneration of any kind nor shall any lots be subdivided.

The price of every lot sold shall include a sum for perpetual care of the lot of not less than twenty per cent of the sale price of each lot. The amount is fixed by the Commissioners. Additional sums for perpetual care may be paid to the Commissioners. All sums in the Perpetual Care fund are deposited in a trust fund, and the income used for such care. This trust fund shall be under the supervision of the Commissioners in special accounts for such purposes administered and invested by the Town Treasurer according to the laws of the State of Vermont.

Lot owners desiring additional care of their lots, may provide for such care with the Commissioners. This may be arranged on an annual payment plan made by the lot owner, or by the establishment of an endowment fund under a special care agreement, whereby the Town Treasurer will hold and invest the principal sum deposited and use the annual income therefrom to defray the cost of such special care. Such arrangements may be made to include the maintenance of any memorial structure, flower fund, or any other purpose or use not inconsistent with the purpose for which the cemetery was established or is being maintained.

Special care provided by the establishment of an endowment fund as set forth in the preceding section, shall be limited absolutely to the income received from the investment of the endowment fund, with no part of the principal being expended.

SHERWIN L. WILLIAMS, President

ROBERT F. DAVIS, Vice-President

GEORGE LIVAK, Secretary

WARNING

The legal voters of the Town of Rutland and Town of Rutland School District are hereby warned to meet at the Town Hall in Center Rutland, on Tuesday, March 1, 1966 at Ten O'clock A.M. to act on the following matters, namely:

1. Choose all necessary officers required by law.

2. Shall the Town vote to raise money by tax or otherwise to pay current expenses of the Town, Overseer of the Poor, Highway and County? If by tax how much?

3. When and to whom shall the taxes be due and payable?

4. Shall license for the sale of Malt and Vinous beverages be granted in this Town?

5. Shall Spirituous Liquors be sold in this Town?

6. Shall the voters authorize the Selectmen to borrow money in anticipation of taxes?

7. Shall the Town vote to take advantage of the Town Highway appropriation granted to the towns by the State, provided the Town spends not less than ($50.00) Fifty Dollars per mile of their own money on Town roads outside of Winter maintenance as provided by Sec. 19 No. 250 Public Acts of 1957, as amended?

8. Shall the Town vote its officers salaries? If so, how much?

9. Shall the Selectmen be authorized to enter into an agreement with the City of Rutland, for the use of the City Dump, based on population, at the rate of 40c per person with the minimum of not less than ($500.00) Five Hundred Dollars annually, subject to the rules and regulations governing the Rutland City Dump?

10. Shall the Town School District vote to raise money by tax or otherwise, to pay current expenses of the School District? If so, how much?

11. Shall the School Board be authorized to borrow money in anticipation of taxes?

12. Shall the Town vote a sum of money not to exceed $80.00 for a scholarship to be awarded a worthy high school graduate of Rutland Town who wishes to enter an institution of higher learning, particularly a teacher's training college?

13. Shall the Town vote to approve an appropriation of ($1,500.00) Fifteen Hundred Dollars to secure the use of the Rutland Free Library to the inhabitants of the Town?

14. Shall the Town School District pay tuition for the higher education for the scholars of said District?

15. To transact any other necessary, legal and proper business which may come before said meeting?

Articles 2, 3, 8, 10, 14 and 15 will not appear on the Australian ballot and will be taken up at 1:30 p.m. The polls will close at 6:00 p.m.

Rutland, Vermont, February 17, 1966
